

Sprint Planning meeting document for Sprint 2

Zenhub board if done, if not, a plan for what epics/stories/tasks remain for Sprint 2 and how you plan to complete it.

These screenshots were taken on 17th of April. Under new issues, we have tasks that we wanna tackle for the next sprint in order. We do not have any screenshots from the initial Zenhub board, but at the end of this document there is a screenshot with a roadmap of all tasks.

We made Backend and Frontend as Epics since they are pretty big tasks and would take more time to figure out how to make them work.

The screenshot displays the Zenhub board interface with the following sections:

- Repo (1/1)**, **Label**, **Sprint**, **Assignee**, **Epic**, **Release**, **Estimate**, and **Author** filters are at the top.
- New Issues** (11 Issues):
 - High priority: CSCE361_voting_system_grou... #12 Admin portal (Front End)
 - High priority: CSCE361_voting_system_grou... #25 Model: include candidates in election (Back End)
 - High priority: CSCE361_voting_system_grou... #24 Model: class ballot (Back End)
 - High priority: CSCE361_voting_system_grou... #22 DB: Create joint table 'ballot' (Back End)
 - High priority: CSCE361_voting_system_grou... #23 (Back End)
- Epics** (2 Issues):
 - CSCE361_voting_system_grou... #8 Back End (Filter by epic issues)
 - CSCE361_voting_system_grou... #4 Front End (Filter by epic issues)
- Icebox** (0 Issues / 0 Points):
 - Icebox: Low priority Issues that do not need to be addressed in the near future.
